

## GLE SHP- SOLAR WATER HEATERS

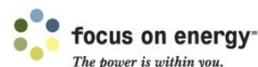

GLE Solar offers high quality, easy to install solar water heating panels for both the do-it-yourself customer and the professional installer. Each panel comes pre-assembled with the primary components required for installing a solar water heating panel. We hold our panels to quality and durability standards that ensure our renewable energy products will perform and provide needed energy savings for 25-30 years.

- Installed on ground, no roof penetration
- Vertically mounting, more absorbing hours
- Potable water safe, direct connection
- No heat-exchange tank needed
- Highest performing product on the market
- SRCC certification
- Government incentives, rebate available
- 10-Year Manufacturer Warranty

### SHP - SOLAR WATER HEATER SPECIFICATIONS

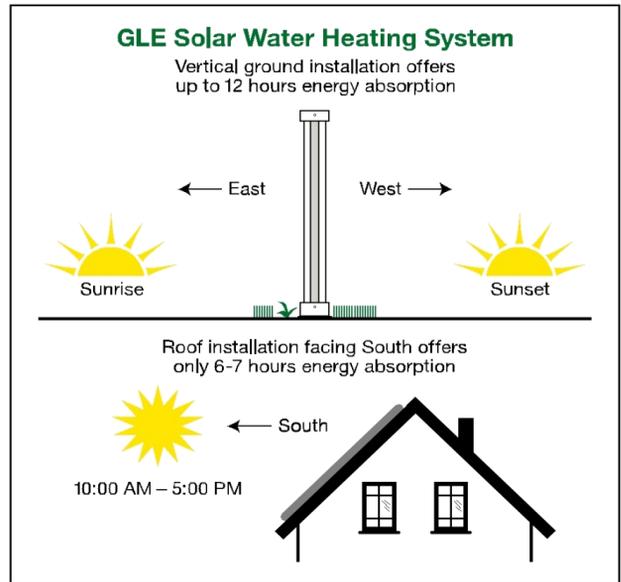

SPECIFICATIONS	SHP-310	SHP-410	SHP-609	SHP-710
Dimensions (H/L/D) (ft)	3/6.2/0.5	4/6.2/0.5	6/5.6/0.5	7/6.2/0.5
Tubes per Unit	10	10	9	10
Water Capacity (Gal)	16	22	34	45
Dry Weight (lbs)	218	268	304	384
Collector outer Diameter (in)	5			
BTU/Day (Btu)	41,000	55,000	74,000	92,000
Flow Rate Capacity (GPM)	2 – 7			
Pressure Rate (psi)	80			
Thermistor Installed	10K			
Typical Installations	Home	Home	Home/Comm.	Commercial

# Best Solar Water Heating Products

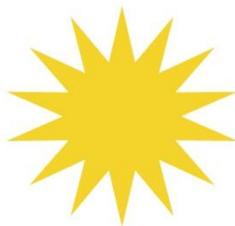

- 360° surface absorption
- Collector efficiency > 90%
- Highest productivity per day
- Water tank self-integrated system
- Large mass heat transferring
- Impact resistant borosilicate glass tube
- High quality stainless steel structure
- Well insulated product
- Best heating products for pools and any DHW applications

## Longer Sunlight Absorption

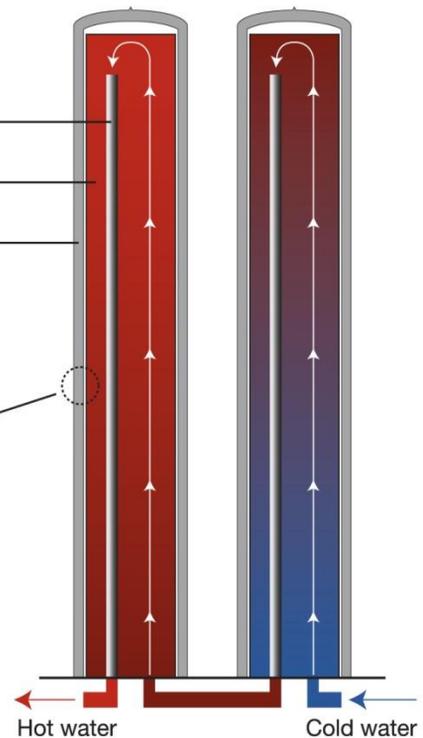

## GLE Collector Technology

Provides the most productive solar collection

Clear glass outer shell  
Vacuum  
Solar collecting coating  
Reflective coating  
Sealed stainless water vessel

Heated water return tube  
Sealed stainless water vessel  
Tempered glass evacuated tube
